

PLANMATE

THE VERTICAL FILING SPECIALISTS

THE PREMIUM SPACE SAVER IN PLAN STORAGE

The Planmate open plan filing system is used extensively by the construction, engineering and architectural industries and is recognised as the most efficient design available. Compared with other storage systems the Planmate filing solution provides greater storage capacity within an equal floor space.

THIS VERTICAL FILING METHOD DRAMATICALLY REDUCES STORAGE SPACE REQUIRED AND RETRIEVAL TIME.

CLAMPS

The key to Planmate's extra capacity is the specially designed three-part clamps that feature greater holding volume and fast and easy release action.

The clamps clip on to the front loading mobile and offer quick and easy access to drawings.

The Planmate AO Clamp is the only clamp having three wingnuts for extra holding capacity.

STANDS

The Planmate stands are manufactured from tubular steel with sheetmetal bracing, they are finished in a black onyx scratch resistant powdercoat enamel finish.

For ease of mobility the Mini is fitted with 50mm lockable castors, having a load capacity of 160kg, and the Maxi is fitted with 75mm lockable castors, having a load capacity of 240kg.

Holding capacity: Planmate Maxi – 20 clamps
Planmate Mini – 10 clamps

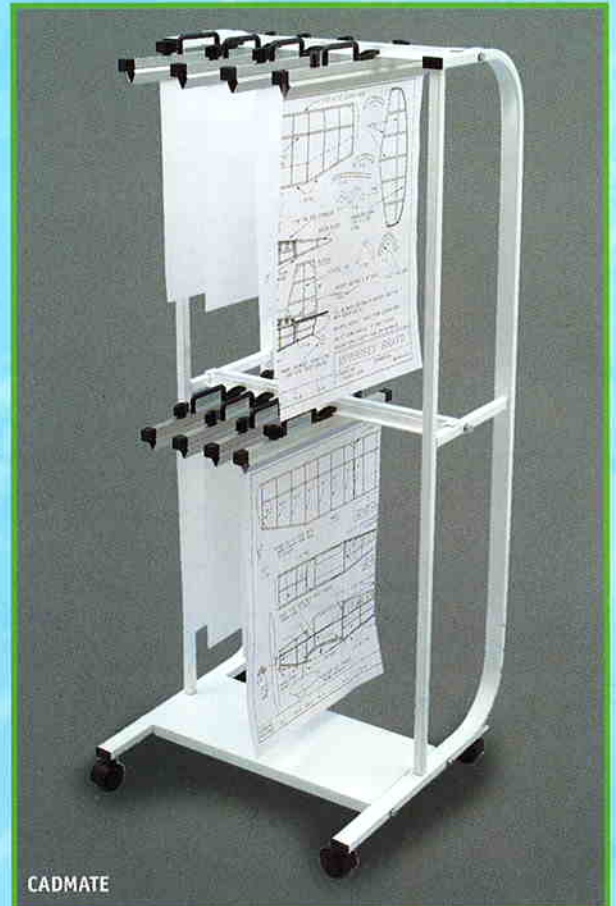

PLANMATE

VERTICAL FILING SOLUTIONS

CADMATE

Front loading two tier mobile stand

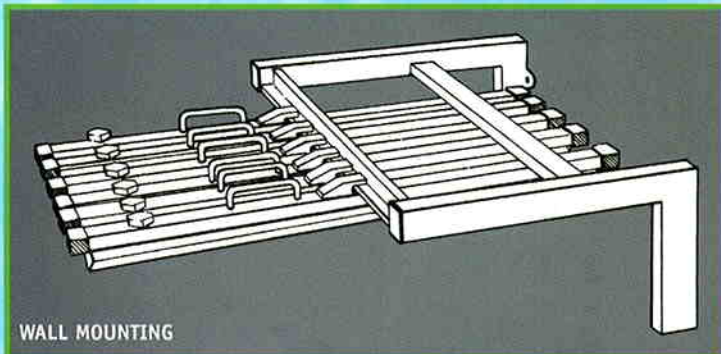

- Ideally suited to the storage of A2 and A3 CAD generated drawings.
- Finished in chip resistant white powdercoat and fitted with castors.
- Large capacity – up to 40 clamps on the upper and lower levels to a maximum of 200kg.

CADMATE

WALL MOUNTING

Made to attach to a wall to take up to 20 clamps.
An economical plan storage method. White powdercoat finish.

WALL MOUNTING

CLAMPS

- Larger holding capacity.
- Superior three-part construction with easy release.
- Made from strong yet lightweight aluminium.
- Finished in scratch resistant silver anodised finish.
- Available in A2 (460mm), A1 (645mm), B1 (800mm) and A0 (955mm).

HANGING CLAMP GUARANTEE

Planmate clamps are guaranteed for 10 years against faulty parts and workmanship! If they prove defective under normal use Planmate will replace or repair them free of charge.
